**If I Could Fly**
**Boy George**

IF I COULD FLY
Boy George
Album: Cheapness and beauty
By : CHIBIABOS, chibiabos@hotmail.com

Intro: (**Em**, **Am**, **D**) x 2

**Em**                                    **Am**          **D**
Stone by the river got no wind in my sail
**Em**                         **Am D**
No revolutions in my soul
**Em**                              **Am**        **D**
Hey revelations just a moment away
                         **C**
Soon Iâ€™m gonna be old
                             **D**
Soon you are gonna be old

**Em**                                **Am**              **D**
Remember love is not something you can keep
**Em**                                      **Am**      **D**
It just takes the wind to blow it away
**Em**                            **Am**            **D**
You look so ugly as you lie there asleep
                          **C**
Boy youâ€™re pretty today
            **D**
So pretty today

              **Am**                        **Em**
   When  I was born the poisoned my mind
                  **Am**                            **Em**
   They told me to fight but Iâ€™m not that kind
                **Am**                      **Em**
   They said I was meek but I did not mind
                       **Am**              **Em**          **D**
   Itâ€™s a case of the weak leaving me blind

**Em**                                        **Am**            **D**
I see the stars have spelt your name in the sky
**Em**                                      **Am**          **D**

I wrote it too down here on the sand
**Em**                                **Am**        **D**
When I first met you, you stirred nothing at all
                        **C**                              **D**
See the cards in your hand, see the cards in your hand

**C**            **G**
Oh If I could fly
        **C**          **G**                  **C**                      **G**
I say  Oh If I could fly, and donâ€™t you know that  If I could fly
                **Am**        **Am, Am, Am, G-D**
Iâ€™d take to the sky

**Em**                                **Am**        **D**
I feel so special when Iâ€™m making you cry
**Em**                                **Am**      **D**
I regret the things I throw in your faceâ€¦ I do
**Em**                              **Am**        **D**
This drug will kill you darling this is no lie
                **C**
This Dragon we chase
                **D**
This Dragon we chase

                **Am**                      **Em**
   When  I was born the poisoned my mind
                      **Am**                        **Em**
   They told me to fight but Iâ€™m not that kind
                    **Am**                    **Em**
   They said I was meek but I did not mind
                        **Am**              **Em**          **D**
   Itâ€™s a case of the weak fooling me blind

**C**            **G**
Oh If I could fly
        **C**          **G**                  **C**                      **G**
I say  Oh If I could fly, and donâ€™t you know that  If I could fly
                **Am**        **Am, Am, Am, G-D**
Iâ€™d take to the sky

**C**            **G**
Oh If I could fly
        **C**          **G**                  **C**                      **G**
I say  Oh If I could fly, and donâ€™t you know that  If I could fly
                **Am**        **Am, Am, Am, G-D.... Em**
Iâ€™d take to the sky
