

**Into The Wild  
Boy**

Into The Wild - Boy

**D Gbm** repeat

Or i could follow you.. into the wild  
You d know your way in the woods, you read the wind and find places to hide  
We d live with the animals, we d play by the fire  
And maybe from time to time, under white starry skies  
I d dream of lightbulbs, and hands that kept me warm in another life

My heart it races and my mind cannot catch up  
It lives in two places it runs through doors that should be shut

**A Bm Gbm**

Or i could stay right here, and watch you from behind  
Wave till your ship s left my harbour, embrace the edges of love in my beautiful life  
I d play with the animals, I d sit by the fire  
And maybe from time to time, I d spot your face in the flames when I get tired

My heart it races and my mind cannot catch up  
It s all over two places it runs through doors that should be shut  
My head s asking questions my heart s a determined dancer

So when the music is over will I finally get my answer
