Open your eyes  
And know you re free to come alive  
You gotta live it while you can  
We only get one life

Look to the sky  
Don t ever let it pass you by  
You gotta live it while you can  
We only get one life

You lost your faith  
And your life is cursed  
You ve cried so hard  
Inside it hurts  
But now s the time

Outside the sun is coming up  
Inside you think you ve given up  
But now s the time

Open your eyes  
And know you re free to come alive  
You gotta live it while you can  
We only get one life

Look to the sky  
Don t ever let it pass you by

You gotta live it while you can  
We only get one life  
One life

It s time to stand up and fight  
It s time for making it right  
We only get one life  
One life, one life

And when it feels like a lie  
I ll be your reason to try  
We only get one life

Open your eyes  
And know you re free to come alive  
You gotta live it while you can  
We only get one life

Look to the sky  
Don t ever let it pass you by  
You gotta live it while you can  
We only get one life  
One life

It s time to stand up and fight  
It s time for making it right  
We only get one life  
One life, one life

And when it feels like a lie  
I ll be your reason to try  
We only get one life  
One life
