Would you let me lose myself inside your love again

**F#m**

**A**

When the seasons change

What is air if it's too hard to breathe, yeah

[Bridge]

**B**

It's just so quiet now

**C#m**

**A**

And the moment's setting in with every press of your lips

**A**

And the shift in your hips, it's just

**B**

**C#m**

It's just a feeling that sits right in my bones

**A**

**A**

And when we're alone and the lights turned low

**B**

I just can't help myself

**C#m**

And I want nothing else

**A**

I just can't help myself

**B**                                  **C#m**  
And I want nothing else but you  
                  **A**                          **F#m**                          **A**

I m so in love with you  
                  **B**                          **C#m**                                  **G#m**  
I m so lost in every single word that you say

  **A**  
So numb me up like novocaine  
**E**                          **F#m**
