Because
Boyzone

[Verse 1]
```
B                          G#m
 I don t question how the world works
E                       F#
 When it s working out for me
B                          G#m
 I m in love with someone beautiful
E                       F#
 So wonderful, you won t believe
```

[Pre-Chorus]
```
B       E           B           F#
 Don t ask me when our worlds collided
                   B
Roll the dice and see
   E         F#
I know what I believe
```

[Chorus]
```
                E
Oh, I love just because
                B
You re mine just because
         G#m
I feel just because
                F#
It s real just because
              E
It hurts just because
              B
It works just because
       G#m                        F#
When I hear anybody ask me why it does
              E     B    G#m    F#
I say  just because
```

[Verse 2]
```
B                          G#m
 I found my love beside a southern birth
E                           F#
 She found a love beside of me
B                          G#m
 On summer days she wears a sundress
```

```
Never looking better
E                       F#
 I m hitting way out of my league
```

[Pre-Chorus]
B   E
When I fell for her
        B   F#
Oh, I tried to hide it, couldn t fight it
B   E   F#
 Now I know that she believes

[Chorus]
                    E
Oh, I love just because
                      B
You re mine just because
              G#m
I feel just because
                  F#
It s real just because
                  E
It hurts just because
                  B
It works just because
        G#m   F#
When I hear anybody ask me why it does
              B
I say just because

[Bridge]
                            E
Because she loves, because she smiles
                      C#m
Her sense of humour running wild
                      F#
Because she makes me dream about
                      C#m
When she s walking down the aisle
                          E
Because she hurts, because she cries
                        B
Because she needs me in the night
              F#
So if you ask me why

[Pre-Chorus]
            E
I say just because
                  B
She s mine just because
            G#m
I feel just because
                F#
It s real just because
                E
It hurts just because

```
                    B
It works just because
              G#m                              F#
And when I hear anybody ask me why it does

[Chorus]
              E
I say just because
                      B
You re mine just because
                  G#m
I feel just because
                    F#
It s real just because
                    E
It hurts just because
                      B
It works just because
          G#m                          F#
When I hear anybody ask me why it does

[Outro]
                  E              F#
I say  just because
                  B
I say  just because
```
