

Glowstone Love - An Original Minecraft Song  
Brad Knauber

INTRO:

D-A-Em-G (x2)

-----

          D      A                  Em  G  
You give me light, when I m in a cave  
          D      A                  Em      G  
You make it bright, So I can be brave.

          D                  A  
And I ll travel to the underground  
          Em                  G                  D  
Just to bring you back, safe and sound with me  
          A                  Em  
I had to break you but I ll put you back together  
          G  
Forever together

Em                  A  
Just think of all the times we ll have  
Em                  A  
Illuminate my dark and boring past  
Em                  A  
I knew I couldn t do this on my own  
G                  A  
I love you, cause you re my Glowstone.

D-A-Em-G (x2)

          D      A                  Em  G  
I ll risk my life, going to the nether  
          D      A                  Em      G  
And I ll be fine, but with you I ll be better.

          D                  A  
And that golden look just makes me smile  
          Em                  G                  D  
And you light up the night think I ll stay for a while, who knows.  
          A                  Em                  G  
Don t tell but I think I like you better than my diamond clothes.

Em                  A  
Now it s bright in the mine at last  
Em                  A

The expectations that I ve had for you, you ve past  
**Em** **A**  
The attachment that I have I would ve never known

**G**  
I LOVE YOU

**A** **D**  
CAUSE YOU RE MY GLOWSTONE  
**D-A-Em-G** (x2)  
Gloooooooooow- Stooooooooone-

Cuase you re my Glowstone  
**D-A-Em-G** (x2)  
Gloooooooooow- Stooooooooone-

**D** **A**  
And I wish it was forever  
**Em** **G**  
the time that we re together  
**D** **A**  
I hop you never grow old and you ll never grow dim  
**Em** **G**  
That you re the same light that you ve always been  
**D** **A**  
Because it s you and me I light up at the thought  
**Em** **G**  
Miners are scared of the dark. But with you I m not.

**D** **A**  
And can we keep this the same. Everyday is a clone.  
**Em** **G**  
I love you, cause you re my glowstooooooooooooooooooooone

**D-A-Em-G** **D-A-Em-G**  
You re, you re my glowstone. (x2)

**A** **D**  
Cause you re my glowstone.
