Based off Mitch Rossells cover of this song

Dropped D tuning

Remember with dropped D remember your **G** chord bass note is now on the 5th fret of

your low E string, use your ring finger to play that 5th fret low E and your pinky

to play 5th fret A string. Then Your pointer finger covers 3rd fret on the B and Hi E strings.

The [Riff] I refer to at the end of the first verse lines and 3rd verse is at the end of the tab.
