

Cum On Feel The Noize
Bran Van 3000

Tabbed by David BÃ©dard-Barrette, McGill University, Canada, September 2004

Here is a wonderful cover song by Bran Van 3000. I tabbed it because I did not find any good versions of it yet. Some poeple did a copy & paste of the original version, but this song is in a different key.

No capo & standard tuning. I m pretty sure for this one, but any corrections are welcome ! davidbarrette@videotron.ca

One last thing; if you re stealing this tab from me, at least give me some credit. I don t mind that you post this tab all over the Internet, but just keep in mind that this is my work. Thanks.
