

Good Man
Brand New

[Verse 1]

G **C**
Well I wrote your name and burned it
G **Asus4**
To see the color of the flame
Am **C**
And it burned out the whole spectrum
G **Em**
As if you were everything
Am
Mine just burned gold
C
A normal flame
G **Em**
I am not anything

[Verse 2]

G **C**
And all that I remember
G **D**
Is the feeling of waking up
Am **C**
When we were kids you were the sun
G **Em**
To which my eyes would not adjust
Am **C**
When we were kids I was a fountain
G
You could never drink enough
G **C**
Then came all the boys who swept you up
G **Asus4**
Played careless with your heart
Am **C**
And every night there was a new girl
G **Em**
Sitting beside me in my car
Am **C**
Something dies when you grow older
G **C**
But you do the best you can

[Outro]

Am
I am glad

C

I am glad

G

You found a good man
