Tuning: EADGBE

VERSE:

**Em**  
I don t want to let you go  
But it hurts my hands to hold the rope  
I won t be such an easy mark  
**C** **Am**  
You re no better then they say

**Em**  
And all the candles on the cake  
All set fire to the gate  
Turn the cannons towards the boat  
**C** **Am**  
Men were drowning in the moat  
**C** **Am**  
It was the end of all rowers oars

CHORUS:

**Em** **D**  
If you call then I m coming to get you  
**Em** **D**  
If you call then I m coming, now  
**Em** **D**  
If you call then I m coming to get you  
**C** **Am**  
You want to sink, so I m gonna let you

VERSE:

**Em**  
All I want s some earth and seed  
But only grow the things I need  
But first I must find my way back  
**C** **Am**  
And you go lay down on the track

**Em**  
At first I had an even keel

But now I m not sure what is real.  
It s taken me this long to learn  
**C** **Am**  
That every dead is ate by worms  
**C** **Am**  
And once they re gone they don t return

CHORUS:

**Em** **D**  
If you call then I m coming to get you  
**Em** **D**  
If you call then I m coming, now  
**Em** **D**  
If you call then I m coming to get you  
**C** **Am**  
You want to sink, so I m gonna let you  
**Em** **D**  
If you call then I m coming to get you  
**Em** **D**  
If you call then I m coming, now  
**Em** **D**  
If you call then I m coming to get you  
**C** **Am**  
You want to sink, so I m gonna let you  
**C** **Am**  
Then the fire snuck into your bedroom  
**C** **Am**  
Now my father sleeps to forget you

BRIDGE (Use a high E here [x799xxx])

**Em**  
How darkly the dark hand met his end  
**C** **Am**  
He was withered and boney, exposed for a phoney  
**Em**  
But we heed the last words that he penned  
**C** **Am**  
Haste to disgrace the traitor. Do not wait til later  
**Em**  
I don t think that you ve got to pretend  
**C** **Am**  
I see God in birds and Satan in long words  
**Em**  
But I know what you need in a friend  
**C** **Am**  
So now when I leave you, I hope I won t see you
