

The Quiet Things No One Ever Knows
Brand New

[Intro]

G, Em7, Cadd9, D

[Verse]

G

We saw the western coast

Em7

I saw the hospital

Cadd9

D

Nursed the shoreline like a wound

G

Reports of lover s tryst

Em7

We re neither clear nor descript

Cadd9

We kept it safe and slow

D

The quiet things that no one ever knows

[Chorus] x2

G

So keep the blood in your head

Em7

And keep your feet on the ground

If today s the day it gets tired

Cadd7

Today s the day we drop out

Gave up my body and bed

D

All for an empty hotel

Wasting words on lower cases and capitals

[Verse 2]

(same as first)

I contemplate the day we wed

Your friends are boring me to death

Your veil is ruined in the rain

By then it s you I can do without

There s nothing new to talk about

And though our kids are blessed

Their parents let them shoulder all the blame

[Chorus] x2

So keep the blood in your head

And keep your feet on the ground

If today s the day it gets tired

Today s the day we drop out

Gave up my body and bed

All for an empty hotel

Wasting words on lower cases and capitals

[Bridge] x2

G Em7 Cadd9 D

I lie for only you

G Em7 Cadd7

And I lie well...

D

Hallelu...

[Chorus] x2

(words from bridge continued in the background)]

So keep the blood in your head

And keep your feet on the ground

Today s the day it gets tired

Today s the day we drop out

Gave up my body and bed

All for an empty hotel

Wasting words on lower cases and capitals
