[Verse]
And what I really mean
what I m trying hard to say
is that I m counting on you
and you got me too
our secrets aren t safe
I m singing out of tune
        G7
if there was no you
     C
if there was no you
[Chorus]
                         Cadd9
             D
out on your way darkest night the longest day
                  G7
I know what to say to make you laugh
and nothing you could do
could make me turn my back on you
when you re looking for a
 G7
fight I m your man
when you need a friend
you got my hand
                 Am
when you need a friend
you got my hand
you got my hand
```
