

In The Dust

Brandon Heath

Capo 2 for original Song

D **G** **D**
For as long as I remember
G **D**
And as far as I can see
G **D**
There are pilgrims in a valley
G **D**
Lost and thirsty just like me.
G **D**
We seek shelter in each other
G **D**
When the rocks begin to slide
G **D**
We can't run from what is coming
G **D**
Down the mountainside
D **G**
When it all comes down
Em
It all comes down.

G **D**
From the ground we were created
G **D**
to the ground we will return
G **D**
Every moment that we've borrowed
G **D**
Every token that we've earned
G **D**
It was His in the beginning
G **D**
And it's His to take away
G **D**
And we can't be sure 'bout nothing
G **D**
But we'll surely know one day
D **G**
When it all comes down
Em
It all comes down

G **D** **A**
And this vapor of a life will vanish on the wind

Every road Iâ€™ve traveled on will come to an end

Heâ€™ll come riding in and steal me up in a rush

Take my place in the light

Leave my bones in the dust.

Woooooaaaaaaaah (x2)

So I won't root myself too deeply

In this valley where we dwell

I won't tie myself to nothing

That tells my soul it isn't well.

I will wait and I will wonder.

Only time will tell

when it all comes down.

It all comes down.

And I will leave this vessel broken down on the shore.

Any shadows down below won't hold me anymore.

Any shackles on my hands will turn to rust.

Take my place in the light.

Leave my bones in the dust.
