

Listen Up

Brandon Heath

Capo 3

**C**                    **G**                    **D**  
Why are you crying  
                         **C**   **G**     **D**  
Did I say something wrong  
                                 **C**                    **G**  
Weren t we just talking  
                                 **C**   **G**     **D**  
Tell me whats going on

**Em**                    **C**  
Cause Iâ€™m pretty sure my intentions  
                         **G**                                    **C**  
Were nothing more than conversation  
**Em**                                    **C**  
Maybe you just needed someone  
                         **G**                                    **D**  
To listen to your heart

**C**                    **D**  
Maybe I spoke too soon  
                         **Em**                    **D**  
Maybe I said too much  
                                 **C**                    **D**  
Now that my face is blue  
   **Em** **D** **G**  
Think itâ€™s time I listen up  
                                 **C**     **D**     **G**  
Iâ€™ve already said enough

**C**                    **G**                    **D**  
Sometimes I do this  
                         **C**   **G**     **D**  
Thing is Iâ€™m so afraid  
                                 **C**                    **G**  
When it getâ€™s quiet  
                                 **C**   **G**     **D**  
What you might have to say

**Em**

Cause Iâ€™m guilty of

**C**

Overcompensation

**G**

Iâ€™m lost in my

**C**

Own translation

**Em** **C**

I apologize, I know I

**G** **D**

Should listen to your heart

Chorus
