

Only Water

Brandon Heath

Only Water

Brandon Heath

D

There s a shadow coming

A

as the sky goes black

G

It s a stubborn rain

on a Nebraska plain

D

There s a farmer standing

A

on a thirsty ground

G

He holds his breath

This is life or death

G

A

D

It s only water

Chorus

Bm

G

And it washes over me

Bm

G

Like a single river stone

m

G

Changes everything but has no power on its own

G

A

D

It s only water

There s a winding canyon

Where a mountain stood

Miles of earth and clay

Carried far away

But there s something holy

In these cathedral walls

They took a lot of years

And a lot of tears

It s only water

CHORUS

There once was a wedding

All the wine was gone

They said He s just a man

That s where it all began
It was only water
