### Versel

**Am**                    **F**                    **C**  
I felt it first when I was younger  
**Am**                    **F**                    **C**  
A strange connection to the light  
**Am**                    **F**                    **C**  
I tried to satisfy the hunger  
                                 **Am**  
I never got it right  
**F**                                   **C**  
I never got it right

### Verse2

**Am**                    **F**                    **C**  
So I climbed a mountain and built an altar  
**Am**                    **F**                    **C**  
Looked out as far as I could see  
**Am**                    **F**                    **C**  
And everyday Iâ€™m getting older  
                                 **Am**  
Iâ€™m running outta dreams  
**F**                                   **C**  
Iâ€™m running outta dreams

### Chorus

**F**  
But Your love  
                                 **C**  
Your love  
                                 **Am**                    **G**                    **F**  
The only the thing that matters is Your love  
                                 **C**                    **Am**                    **G**  
Your love is all I have to give  
                                 **F**                    **C**                    **Am**                    **G**  
Your love is enough to light up the darkness  
                                 **F**  
Itâ€™s Your love  
                                 **C**  
Your love  
                                 **Am**                    **G**                    **F**                    **C**                    **Am**  
all I ever needed is Your love

You know the effort I have given

And though my innocence was taken  
**Am**  
Not everything is lost

Not everything is lost
