**G** **C**  
Incandescent moon is shining, just for you tonight

**G** **C** **G**  
Shimmering a golden halo does it follow just beyond your sight?

**G** **C** **G**  
Sigh You re an angel wanting wings for flight Tonight

**C** **G**  
Baby s breath in the waxing light

**Em** **D** **C** **Em** **D** **C**  
Glassy seas of blue I will dream of you

**G** **Bm** **C** **D** (repeat)  
Let s close our eyes till daylight comes Babyies breath and  
chrysanthemums So beaming blue these dreaming skies  
In soundless sleep now close your eyes  
Till daylight  
Till daylight comes  
Till daylight  
Till daylight comes  
Just close your eyes till daylight comes

I keep feeling that the strangest Peace is all around  
In the speechless, in this quiet  
Angels never make a single sound  
Sigh  
Baby s breath and lilacs so profound Falling down  
Softest moonlight making garlands Forms the crown  
Glassy seas of blue I will dream of you
