Chords used

The first chord is a G chord in the C shape on fret 7. I'll call that 7G. You really don't have to use the G on the 7th fret, but it's what they use (I'm almost certain). They use it because it has a prominent B on the high e string and it gives it a little different sound. If you want to keep it simple just play the G two times instead of the 7G.

7G G C D

```
e--7--3--0--2-----|
B--8--3--1--3-----|
G--7--0--0--2-----|
D--9--0--2--0-----|
A--10--2--3--x-----|
E--7--3--0--x-----|
```
