Am **Dm**
Take me to your house
 G **C**
And show me to all your family
Am **Dm**
I don t care about
 G7 **C**
The fool that it makes me seem
 Am **Dm**
Cause I know that you re 17
 G **C**
And I m just an aging dandy
 Am **Dm**
The world is light and dark
 G **Am**
And we live in between

When I was a boy
I wandered the streets of downtown
Staring at the sky
And feeling that I didn t belong
In a world where the gentle seem wrong
And teeth get knocked out on Sundays
I lay down in the shower
And make it go away

Dm G C
This fading world
 Dm G C
My lovely girl

And I know that you re 17
And I m just an aging dandy
The world is light and dark
And we live in between

When I was a boy
I wandered the streets of downtown
Staring at the sky
And feeling that I didn t belong
In a world where the gentle seem wrong
And teeth get knocked out on Sundays
I lay down in the shower
And make it go away

This fading world
My lovely girl

This fading world
My lovely girl

Cause I know that you re 17
And I m just an aging dandy
The world is light and dark
And we live in between
