Bbm **Ebm**
Take me to your house
 G# **C#**
And show me to all your family
Bbm **Ebm**
I don t care about
 G#7 **C#**
The fool that it makes me seem
 Bbm **Ebm**
Cause I know that you re 17
 G# **C#**
And I m just an aging dandy
 Bbm **Ebm**
The world is light and dark
 G# **Bbm**
And we live in between

When I was a boy
I wandered the streets of downtown
Staring at the sky
And feeling that I didn t belong
In a world where the gentle seem wrong
And teeth get knocked out on Sundays
I lay down in the shower
And make it go away

Ebm G# C#
This fading world
 Ebm G# C#
My lovely girl

And I know that you re 17
And I m just an aging dandy
The world is light and dark
And we live in between

When I was a boy
I wandered the streets of downtown
Staring at the sky
And feeling that I didn t belong
In a world where the gentle seem wrong
And teeth get knocked out on Sundays
I lay down in the shower
And make it go away

This fading world
My lovely girl

This fading world
My lovely girl

Cause I know that you re 17
And I m just an aging dandy
The world is light and dark
And we live in between
