**Brazzaville**

**Bm** **Em**  
Take me to your house  
**A** **D**  
And show me to all your family  
**Bm** **Em**  
I don t care about  
**A7** **D**  
The fool that it makes me seem  
**Bm** **Em**  
Cause I know that you re 17  
**A** **D**  
And I m just an aging dandy  
**Bm** **Em**  
The world is light and dark  
**A** **Bm**  
And we live in between

When I was a boy  
I wandered the streets of downtown  
Staring at the sky  
And feeling that I didn t belong  
In a world where the gentle seem wrong  
And teeth get knocked out on Sundays  
I lay down in the shower  
And make it go away

**Em A D**  
This fading world  
**Em A D**  
My lovely girl

And I know that you re 17  
And I m just an aging dandy  
The world is light and dark  
And we live in between

When I was a boy  
I wandered the streets of downtown  
Staring at the sky  
And feeling that I didn t belong  
In a world where the gentle seem wrong  
And teeth get knocked out on Sundays  
I lay down in the shower  
And make it go away

This fading world  
My lovely girl

This fading world  
My lovely girl

Cause I know that you re 17  
And I m just an aging dandy  
The world is light and dark  
And we live in between
