I live a chemical life

I m on a mission to try

My only option is gone

Smile as they break and they fall

C

You want a simpler life

C

You can t erase what was mine

[Chorus 1]

C

You must be out of your mind

C

This was a simple design

You fuck it up every time

How could you leave me behind

G Am F

It s alright, it s alright

But you ll just have to wait

If I had it to give
 C **F**
I would give it away
 C **G**
I m living it up

Made up of four letter words

You want to know what it was

Now isolated and gone
C
You fall apart at the seams
C
I ll never know what it means
C
Try not to pull it apart
C
You re aiming straight for the heart

[Chorus 1]

C
You must be out of your mind
C
This was a simple design

You fuck it up every time

How could you leave me behind
