capo 3
I never noticed how my heart could beat so loud
When I, think of you
And I cant focus now, got my head up in the clouds
When I, think of you
My hearts so lost in all the chaos
Its got me crazy
With the spell you cast, it all happened so fast
Goodbye to loneliness
Em
And when I close my eyes, you play like a movie in my mind
You are the star of my daydreams
Everything you are is my reverie
Em
                                          C2
Can you feel my heart when youre moving, closer and closer and
You are the star of my daydreams
Everything you are is my reverie
                                          C2
Can you feel my heart when youre moving, closer and closer?
Oh I think that we, that we were meant to be
