

Idgaf

Breathe Carolina

So the whole song has the same chords played on the guitar.
Although the real chords must be power chords, this sound exactly the same.

You will also need to strike the first second and third string open so lets just call
that the EBG chord.

Am Am C C C F F EBG EBG C

Keep repeating this throughout the whole song.

If you need any help, or think something should be corrected, e-mail me at
