

Stay With Me
Breathe Electric

Breathe Electric - Stay With Me

F
Feels like we've walked into the circus

Am
Where everyone is friendly

F
Only on the surface

F
They like to think we pay attention

Am
But I think I should mention

F
It's a common misconception

F **C**
We don't stop, we don't care

Am **F**
With our hands up in the atmosphere

F
To think we pay attention

F
Is a common misconception

F **C**
It's been so long and I've been here

Am **F**
Waiting just to get you near

F **C**
Stay with me

G **Am** **F** **C** **G** **Am**
I know you and I belong like this together baby

F **C**
All the while we go out

G **Am**
They can run their mouths

F **C**
But they don't understand

G **F**
All they do is pretend

They wait for a negative reaction
To get their satisfaction
And justify their actions
We stay away and do our own thing
Haters keep on hating, we'll just keep on dancing

We don't stop, we don't care

With our hands up in the atmosphere
Haters keep on hating, we ll just keep on dancing
It s been so long and I ve been here
Waiting just to get you near

Stay with me
I know you and I belong like this together baby
All the while we go out
They can run their mouths
But they don t understand
All they do is pretend

If I had a dollar for every time they stared
It would be worth it, I d be a millionaire
And if I could pay them in how much I care
It wouldn t get them anywhere

If I had a dollar for every time they stared
It would be worth it, I d be a millionaire
And if I could pay them in how much I care
It wouldn t get them anywhere

Stay with me
I know you and I belong like this together baby
All the while we go out
They can run their mouths
But they don t understand
All they do is pretend
