When I was alive I didn t know why I died.
I guess I thought everything was dead.
Your hair is red; in other lights it s black;
And when you laugh,
it brings me back...

And love, I got you didn t I?
I got you didn t I?
I got you...
And love, I got you didn t I?
I got you didn t I?
I got you...

When I was playin dead;
I d lie down.
I wouldn t move;
Though everything else was...
The swingset;
Kid s playin catch with their dads...

No one noticed yet...

When I was alive

I didn't know why I died.

I guess I thought everything was that way.

Your hair is grey, in other lights it's black...

And when you laugh...

still brings me back.

And love, I got you didn't I?

I got you didn't I?

I got you...

And love, I got you didn't I?

I got you didn't I?

I got you...

You got me...
