I ve been hanging out in the boredom basement

Homemade rockets and a load of laundry

It s been a real party ever since you set me free

They say that I m cool, they tell me I m strong

So how come everything feels wrong?

I took all the money that I won at the table
Got another record and a phat tattoo
Everybody says, Hey whatcha gonna do now?
I ve been killing myself trying to keep my mind off of you

They say that I m cool, they tell me I m strong
Everyone says it s better now that you re gone
Well maybe everyone is wrong

Everyday I m alone and everyday s long
Telling myself it s better since you ve been gone
So how come everything feels wrong?

A E
How could you let me go? After it took so long to find me?

A E B
Take back your radio -- all of these stupid songs remind me

A B
That everything s wrong and it s become plain

A B E B A E B A
Even if I am strong, we ll never be the same, Doot-do-do...

Everybody says, Hey whatcha gonna do now?

Well, I ve done it all and still I am thinking of you

So don t tell me I m cool and say that I m strong

Everyone thinks it s better now that you re gone

Well I think everyone is wrong

Cause everyday I m alone and everyday is long

Telling myself it s better since you ve been gone

So how come everything feels wrong?
