Green
by: Brendan James
key: **C#**

Verse:1
C#
Zeppelin never left her Never died or second guessed her
F#
Painted on her body
C#
The stars would never hurt her Never lie, never desert her
F#
Painted on her body
A#m
She prayed to God when she was young
                                        G#
After the storm a calm would come above her
A#m
I thought that I could be the one
                                        G#
to part the clouds before the sun above her

Chorus:
C#
Green reminds me
                    F#
Of everything we did it blinds me
                        C#
It rushes through my head it finds me
        F#
Close to you again

Verse2:
C#
Mother moves to town again
                                F#
Holds her upside down again said it s nice to see her
C#
Brendan now youâ€™ve got to come sheâ€™s where I get my smile from
F#
Iâ€™d like for you to meet her
A#m
Now Andrea was paint and pride a step behind oh how she tried
G#
I loved her
A#m
And all she wore from head to floor was shades of green from our store

G#
I loved her oh oh oh

Bridge:
G#   **F#**
And oh, oh, oh, all for me she cried
G#   **F#**
And oh, oh, oh, all for love
A#m
In retrospect wish I
            G#
Could have said three words that night
All me, all me, all me
