Only Want You Brett Dennen

I only want you, I only want you

Em

This is how I think it sounds. I ve added extra chords that may not be there am strumming while Brett is picking. Let me know if there is a better option:) CAPO 2 Listen to the river does it make you wonder? G How anything could ever stand still? opt (C) First lightning then thunder, thunder. G A kiss in the rain, love Feel the thrill. Em Chorus I only want you, I only want you Em D I want what we had. I only want you, I only want you It s as simple as that. G Verse Run to the forest you'll find some shelter. G Remember how we fell in love so sweet? opt (C) G You said watch your step Walk softer, softer G D Em Cause dreams are growing beneath our feet. F:m D G Chorus I only want you, I only want you D I want what we had. I only want you, I only want you D Can we get it back?

D

```
I want what we had.
I only want you, I only want you
                                   D
It s as simple as that.
  G
Bridge
Yours is the best love, it's the best love.
                                                G
So pure and so true.
                                        Em
                                                 G
Our love will lift us, our love will lift us.
Only love, my darlin . Only you.
                                          D
Em
Verse
When I do not feel inspired.
                                      G
I can only speak my heart.
           opt (C)
I m sitting in the middle of a fire, fire.
                                                D
                                                          G
And I can t even catch a spark.
                                   D
                                           G
Chorus
I only want you, I only want you
I want what we had.
I only want you, I only want you
      Em
                                   D
Can we get it back?
I only want you, I only want you
      Em
                                   D
I want what we had.
I only want you, I only want you
      Em
                                   D
```

It s as simple as that.

G
