

**Needles In The Camels Eye**

**Brian Eno**

some weird effect going on, this applies mostly to bass

Intro

**E A A/B (/B)**

Verses

**E            A    B**

Those who know

**E                            A    B**

They donâ€™t let it show

**E                            B**

They just give you one long life

**D                            A**

And youâ€™ll go oh, oh, oh, oh.

The solo is mostly E Major scale, with some bluesy licks, I don t feel a need to really

tab it out, if you really want it then make this tab a highly rated one.
