Iâ€™ve got all the things I said would come my way
      D            Bm
I got paid got accolades
              G                  A
Now you barely recognise the life I ve made
```

```
  G                 A

Left me wanting you
```

```
             G
Now I ve got nothing

We had something that I ve been missing

Everything but you â€¦
