

**If Winter Ends
Bright Eyes**

play with vacuum running in the background

CODE

Capo on the first fret.

D **A**
i dreamt of a fever,
 Bm **G** **D**
one that would cure me of this cold, winter set heart.
 A **Bm**
with heat to melt these frozen tears and burned with reasons
G **D**
as to carry on.
D **A** **Bm** **G**
into these twisted months i plunge without a light to follow
 D **A**
but i swear that i would follow anything
 Bm **G**
if it would just get me out of here.
Bm **G**
and so you get six months to adapt
Bm **G**
and then you get two more to leave town.
Bm **G** **Bm** **G** **A**
in the event that we do adapt we still might not want you around.
 D **A** **Bm** **G**
and i fell for the promise of a life with a purpose
 D **A** **G**
but i know that that is impossible now.
 D **A**
and so i drink to stay warm
 Bm **G**
and to kill selected memories
 D **A** **G**
because i just can't think anymore about that or about her tonight

(and so forth.. you know the rest)

i know this isn't the best but i hope it helps...
