I never stood a chance

Gm

```
Avalanche
Bring Me The Horizon
                                 Bb
                                       F
Cut me open and tell me what s inside
Diagnose me cause I can t keep wondering why
                                                   Bb
And no, it s not a phase cause it happens all the time
Start over, check again, now tell me what you find
          Gm
Cause I m going out
     Вb
Of frequency
                   Вb
                        F
      Gm
Can anyone respond?
             D#
It s like an avalanche
I feel myself go under
Cause the weight of it s like hands around my neck
I never stood a chance
My heart is frozen over
And I feel like I am treading on thin ice
Am I broken? What s the chance I will survive?
                                                     F
Don t sugarcoat me, cause I feel like suicide
     Gm
                                                   Bb
Just give it to me straight cause I m running out of time
I need another drug, now what can you prescribe?
             D#
It s like an avalanche
I feel myself go under
Cause the weight of it s like hands around my neck
```

```
D#
And I feel like I am treading on thin ice
And I m going under
                              Gm
I need a cure for me cause a square doesn t fit the circle
                          Gm
Give me a remedy cause my head wasn t wired for this world
                             Gm
I need a cure for me cause a square doesn t fit the circle
                          C<del>'</del>m
Give me a remedy cause my head wasn t wired for this world
