

Hospital For Souls
Bring Me The Horizon

And then I found out how hard it is to really change
Even hell can get comfy once you've settled in
I just wanted the numb inside me to leave
No matter how fucked you get, it's always there when you come back down
The funny thing is, all I ever wanted, I already had
There's glimpses of heaven in every day
In the friends that I have, the music I make
The love that I feel... I just had to start again

(**Em** **C** **Am** **Em**)

Em
The days are a death wish
C
A witch hunt for an exit
Am **Em** (**D**)
I am powerless

Em
The fragile, the broken
C
Sit in circles and stay unspoken
Am **Em** (**D**)
We are powerless

Em
Because we all walk alone on an empty staircase
C
Silent halls and nameless faces
Am **Em** **D**
I am powerless

Am
Everybody wants to go to Heaven
C
But nobody wants to die
Am
I can't fear death no longer
C (**Am**)
I've died a thousand times

Am
Why explore the universe
C
When we don't know ourselves?
Am
There's an emptiness inside our heads

(Am)

That no-one dares to dwell
