

**Hospital For Souls**  
**Bring Me The Horizon**

And then I found out how hard it is to really change  
Even hell can get comfy once you've settled in  
I just wanted the numb inside me to leave  
No matter how fucked you get, it's always there when you come back down  
The funny thing is, all I ever wanted, I already had  
There's glimpses of heaven in every day  
In the friends that I have, the music I make  
The love that I feel... I just had to start again

( **Em C Am Em** )

**Em**  
The days are a death wish

**C**  
A witch hunt for an exit  
**Am Em** ( **D** )  
I am powerless

**Em**  
The fragile, the broken  
**C**  
Sit in circles and stay unspoken  
**Am Em** ( **D** )  
We are powerless

**Em**  
Because we all walk alone on an empty staircase  
**C**  
Silent halls and nameless faces  
**Am Em D**  
I am powerless

**Am**  
Everybody wants to go to Heaven  
**C**  
But nobody wants to die  
**Am**  
I can't fear death no longer  
**C** ( **Am** )  
I've died a thousand times

**Am**  
Why explore the universe  
**C**  
When we don't know ourselves?  
**Am**  
There's an emptiness inside our heads

( **Am** )

That no-one dares to dwell

**Em** **C**

Throw me to the flames!

**Am** **Em**

Watch me burn!

**Em** **C**

Set my world ablaze!

**Am** **Em**

Watch me burn!

**C**

How are we on a scale of one to ten?

**Am**

Could you tell me, what you see?

**C**

Do you want to talk about it?

**D**

How does that make you feel?

**C**

Have you ever took a blade to your wrists?

**Am**

Have you been skipping meals?

**C**

We re going to try something new today

**C** **Am** **Em**

How does that make you feel?

**Em** **D**

Hold me close, don t let go, watch me (burn)

**C** **Am**

Hold me close, don t let go, watch me (burn)

**Em** **D**

Hold me close, don t let go, watch me (burn)

**C** **Am**
