Were you hoping that you might get paid?

**D7**

But on the way did you get waylaid?

**D6**

And now tomorrow keeps coming, tomorrow keeps coming today

**D      DMaj7**

Again and again and again...

Tomorrow keeps coming today...

(repeat chords)

Luna was a strange girl, she was pretty mad

When we felt sorry for ourselves she d say it s not so bad

even the galaxies weep for the suns and the stars they ll never be

We all laughed but we also felt quite sad

So hey now, just put the fucking record on and tell my why

Oh hey now, just put the fucking kettle on and tell me how

A Ballardian nightmare erupted and now we all share

One thought, one love and one idea

If you want it, you can have it all

If you re needy come to me

If you like to, you can take it

It s not really complicated...

(these chords are from the bass guitar so i m just predicting what the chords would be)

Em D Bm F#m          Em D Bm F#m

Oh, oh but these aren't the answers, these are not the answers for you or me  
I thought we had a deal

Em D Bm F#m          Em D Bm F#m

But tomorrow keeps coming today, again and again and again...

Em D Bm F#m          Em D Bm F#m
