To think I m so naive.. how dare you play with me  
I gave you heart and soul yeah  
Tell me baby please  
Oh why you screwin with my head  
I don't think you understand  
I won t take your.. uhh.. no more  
Don t knock on my door

Not this time.. because I recognize  
I ve heard it all before... and I.... I.. I

I think about the times that I wasted  
I think about the times that I took you back  
Ain't no way I ll be lonely  
I don't wanna let you back in  
Let s just face it (face it)  
Better off alone and I won t turn back  
You thought that I will be lonely  
I don't wanna let you back in

Don't tell me how to feel  
Or say that you re for real  
My minds made up I m cool without ya  
You got no more appeal  
Now this girl don't need no man  
Say what you can to worsh she can  
Now I live for me  
Boy does that make you weak

Not this time...because I realize  
I've heard it all before... and I.... I.. I

I think about the times that I wasted  
I think about the times that I took you back  
Ain't no way I'll be lonely  
I don't wanna let you back in  
Let s just face it(face it)  
Better of alone and I won t turn back  
You thought that I will be lonely

I don't wanna let you back in

Think of times you made me cry you  
had me so confused  
I'm tired of trying  
leave behind this  
What s a girl to do

Think of all the times you made me sick  
I used to think I couldn't handle it  
What you think,I'm just another chick  
Must have bit,boy you must have tripped  
The way you thinkin when you lost my trust  
You had it all and now your left for nothing  
Ooh baby now I know you want my touch  
and now you're lonely and you still want me

I think about the times that I wasted...
