

## Trip To Your Heart

Britney Spears

The electro instruments make it hard to hear a clear chord but these should work nicely for an acoustic guitar or piano rendition of the song. This is the same key as the recording.

**Am**  
For tonight it s just the two of us  
**F**  
Dim the light now just the two of us  
**C**  
Like how you roll whisper in my ear  
**F** **Am**  
Your breath like ghosts that disappear

**F**  
Hold me close, hold me close, hold me tight now

**C**  
Need you more, want you most, feels so right now  
**F**  
Like how your hands feel me up and down  
**C**  
Like how your touch send me off the ground

### CHORUS

**C** **G** **Am**  
Spread my wings out in to the dark  
**Am** **F** **C**  
I ll fly away on a trip to your heart  
**C** **G** **Am**  
Break these chains that keep us apart  
**Am** **F** **C**  
I ll fly away on a trip to your heart  
**C**  
oooh oooh oooh oooh  
**G** **Am**  
ooh ooh ooh ooh  
**Am** **F** **C**  
I ll fly away on a trip to your heart

Baby can t believe you were sent to me  
Like a postcard for my memory  
Your body feels like a fantasy  
This moment s all that i can see

Pull me close, strip me down, hold me tight now  
Need you more want you most, feels so right now  
Like how your hands never let me down  
Like how your touch send me off the ground
