I m coming down with a heartache tonight,
Only you can make it right,
if I can t be with you holding you tight
there won t be no morning light

everywhere I turn, I see your face
reminding me of a higher place
everytime you smile, angels cry,
everytime you walk on by.

I m not the only , feeling lonely
everytime you walk on by.
I tried to say something,but end up with nothing
everytime you walk on by

I keep my cool
and pretend I m not in
everytime you come too near
I m such a fool coz,
this love is true and if I dont tell u someone else surely
will.

everywhere I turn, I see your face
reminded me of a higher place
everytime u smile, angels cry,
everytime you walk on by.

I m not the only , feeling lonely
everytime you walk on by.
I tried to say something,but end up with nothing
everytime you walk on by

If I ever see you again,
this craziness must find an end
I look at u and I promise myself..

I m not the only , feeling lonely
everytime you walk on by.
I tried to say something,but end up with nothing
everytime you walk on by

fade out..
