I m coming down with a heartache tonight,  
Only you can make it right,  
if I can t be with you holding you tight  
there won t be no morning light

everywhere I turn, I see your face  
reminding me of a higher place  
everytime you smile, angels cry,  
everytime you walk on by.

I m not the only , feeling lonely  
everytime you walk on by.  
I tried to say something, but end up with nothing  
everytime you walk on by

I keep my cool  
and pretend I m not in  
everytime you come too near  
I m such a fool coz,  
this love is true and if I dont tell u someone else surely  
will.

everywhere I turn, I see your face  
reminded me of a higher place  
everytime u smile, angels cry,  
everytime you walk on by.

I m not the only , feeling lonely  
everytime you walk on by.  
I tried to say something, but end up with nothing  
everytime you walk on by

If I ever see you again,  
this craziness must find an end  
I look at u and I promise myself..

I m not the only , feeling lonely  
everytime you walk on by.  
I tried to say something, but end up with nothing  
everytime you walk on by

fade out..
