but you re looking through me

E1

In the same room

C#m

Badd9

a smile away feels miles from where you are

Might as well be Mars.

Never been bound by gravity

But I am now

You have made a human out of me

and pulled me down

Falling like the stars

I m falling fast and hard

for something I can t reach.

E

I could be there

but you wouldn t see me

E1

hover in the air

C#m

Like I m just like a daydream, oh

Badd9

why does it feel so far?

E

Close enough to touch

but you re looking through me
