          B                            F#
oh when we were seventeen, our life was like a film
          C#m                         E
when we were seventeen the sky was always tangerine
          B                            F#
we ran through streets at night, under starlight
          C#m
we ran through streets at night
     E                     B F# G#m E
when we were winning

     B                            F#
oh wild was the world, and wild we burned
          C#m                         E
we were kings of the streets, not yet beaten by defeats
     B                               F#
but now it s hard to see, through a fog of memories
     C#m                 E           B F# G#m E
but I remember, when we were winning

          B                            F#
now my friends are unemployed, not needed in this world
          C#m                   E
pushed down by this town and always turned down
     B                               F#
but in dreams at night, they can sometimes recall
     C#m                         E           B F# G#m E
when we were heroes, when we were winning

G#m              F#            E      G#m            F#           E
what have we done to our lives? we could ve been anything
G#m                             F#                FCG  (B F# G#m E 2x)
we gave it our love for what? this is the time

          B                               F#
oh it s in the air at night there s a wind coming in
     C#m                     E
the days dying, oh it s so beautiful
                    B
there s something happening somewhere
               F#                      C#m
I take the bus in to town, all I see is laughing
```

```
     E                    B F# G#m E
and we are winning

B                F#              C#m                    E
soon I grow older young boys I haven t lived yet
   B                        F#               C#m
before tonight s the memory let s go out
        E
