### Broken Bells

This is my first post, so please comment so I know how I did, or if i got any lyrics wrong. :P Oh, when you play the intro/verse, the change from A to G and C to D only gets 2 beats, not 4. Hope you like the tabs! :)

Capo:5

INTRO:

**Em, Bm, A, G, C, D**

VERSE:

**Em** **Bm**  
What amounts to a dream anymore?  
**A G C D**  
A crude device, a veil on our eyes.  
**Em** **Bm**  
A simple plan we d be different from the rest  
**A G C D**  
And never resign, to a typical life

**Em, Bm, A, G, C, D:**

**Em** **Bm**  
Common fears start to multiply  
**A G C D**  
We realize we re paralyzed  
**Em** **Bm**  
Where d it go, all that precious time?  
**A G C D**  
Did we even try, to stem the tide.

PRE CHORUS:

**A** **Em**  
Why should we waste it on  
**G C D**  
Buying into the same old lies?  
**A** **Em**  
The longer we wait around  
**G C D**  
The faster the years go by

CHORUS:

**Bm** **A**  
It s not too late
