NOTE ABOUT STRUMMING PATTERN:

Instead of maintaining the same pattern throughout, feel free to strum once and let the chords hang to match where they do this in the recorded version. If you want an example, here s my recording of it:

[Verse 1]

Em **Am/C** **G** **C**
We collide synchronized as I gaze into your eyes
C2 **Am** **D**
Feel our souls lose control when your body softly glides
Em **Am/C** **G** **C**
Over mine petrified, but our hearts feel it s the time
C2 **D**
I ll hold back, at least I ll try til you end with me
G **D**
And show me...

[Chorus]

Em
Beautiful...
C **D** **Em**
I ll show you wonderful as we share love
C **D** **Em**
I ll show you everything that you ve ever dreamed of

[Verse 2]

Here we lie side by side, now your heart pounds next to mine
Our two souls are surely whole now that I have realized
It s the way your body sways, it s your voice that calls my name
It s your lips, the way they taste and how you look at me
And show me...

[Chorus]

Beautiful...
I ll show you wonderful as we share love
I ll show you everything that you ve ever dreamed of

[Bridge]

There couldn t possibly be more then this
...I m in complete and utter bliss
Stay with me...
(Stay with me)
Forevermore
Forevermore, you show me...

[Chorus]

Beautiful...
I ll show you wonderful as we share love
I ll show you everything that you ve ever dreamed of
That you ve ever dreamed of
That you ve ever dreamed of
That you ve ever dreamed of.
