Song: Dia Dos Namorados (Day of Lovers in Portuguese)

[Intro]

C#m F#m B F#m

[Verse]

C#m F#m
Darling can you hear me can you open up your eyes
B F#m
And see that every move I make is a dance just for your gaze
C#m F#m
That every single action is a means not to an end
B F#m
An opposite reaction to the diffidence we claim

C#m F#m
So paint me, take me, hate me, claim me make me something more
B F#m
Something better than the black and white that coloured me before
C#m F#m
I want to feel your body and your hands upon my chest
B F#m
To feel my emptiness

[Chorus]

G# C#m
So bury me beneath the pines
B
In the shallow soil
C#m
In the filth and grime
F#m C#m F#m B
And still this heart will yearn for you

[Verse]

C#m F#m
So I ve hatched upon a plan, a scheme of dervish wit
B F#m
A pilot light to guide me through the caverns of your heart
C#m F#m
I take this knife upon myself and gouge a shallow track
B F#m
Until you love me back

[Chorus]

G# C#m

So bury me beneath the pines

B

In the shallow soil

C#m

In the filth and grime

F#m
