Well I ll do what it takes. Try whatever works

C# **Eb**

I can t just sit here, and watch her hurt

Chorus:

G#

While she sorts out

Why Mister Right did her wrong

C#

Give her one more drink

Eb

And a few more songs

G#

In the barroom haze

Eb

All alone she sits

C#

Oh, she s about as lonely

G#

As I m gonna let her get

Oh sittin lonely at the bar

Tryin to drown the past

Starin at her broken heart

At the bottom of her glass

Oh, I don t want to push her

But I can t take much more

Think I m gonna have to step up

And show heartache to the door

Chorus:

While she sorts out

Why Mister Right did her wrong

Give her one more drink

And a few more songs

In the barroom haze

All alone she sits
Oh, she s about as lonely
As I m gonna let her get

While she sorts out
Why Mister Right did her wrong
Give her one more drink
And a few more songs
In the barroom haze
All alone she sits

C#

Yeah, she s about as lonely

C#

Yeah, she s about as lonely

Eb

As I m gonna let her get
