And baby, somewhere, sometime
I will walk with you

(Play Intro Again)

Long way to go, the road winds on and on
You feel all alone, in the cold light of the dawn
And I know that it s warm by your side, but you re so far away
There s always another wall

Sometimes you feel so small
You could pick me up when I fall
Be the one to help me through it all
Be there when I call

Everything comes and goes
You try to believe but you never know
Anyway the wind blows
And baby somewhere, sometime
I will walk with you

(Solo Break, Play Verse Chords)

There s always another wall
Sometimes you feel so small
You could pick me up when I fall
Be the one to help me through it all
Be there when I call

Everything comes and goes
You try to believe but you never know
Anyway the wind blows
And baby somewhere, sometime
I will walk with you

(Play Intro and Fade Out)
