Back In Your Arms Again - Bruce Springsteen

**C**                    **G**                    **Am**  
In my dream our love was lost  
   **F**                    **C**  
I lived by luck and faith  
   **G**                    **Am**  
I carried you inside of me  
   **F**  
prayed it wouldn't be too late  
   **G**  
Now I'm standing on this empty road  
   **F**                    **G**                    **F**  
Where nothing moves but the wind  
   **G**                    **C**  
And honey I just wanna be

**G**                    **Am**  
Back in your arms  
   **F**                    **C**  
Back in your arms again  
   **G**                    **Am**  
Back in your arms  
   **F**                    **C**  
Back in your arms again  
   **G**                    **Am**  
Back in your arms  
   **F**                    **C**  
Back in your arms again

**C**                    **G**                    **Am**  
Well once I was your treasure  
   **F**                    **C**  
And I saw your face in every star  
   **G**                    **Am**  
But these promises we make at night  
   **F**  
Oh, that's all they are  
   **G**  
Unless we fill them with faith and love  
   **F**                    **G**                    **F**  
They're empty as the howlin' wind  
   **G**                    **C**  
And honey I just wanna be

**G**                    **Am**  
Back in your arms

**F C**  
Back in your arms again  
**G Am**  
Back in your arms  
**F C**  
Back in your arms again  
**G Am**  
Back in your arms  
**F C**  
Back in your arms again

**G**  
You came to me with love and kindness  
**Am F**  
But all my life I ve been a prisoner of my own blindness  
**G**  
I met you with indifference  
**Am G**  
And I don t know why

Now I wake from my dream  
**F C**  
I wake from my dream to this world  
**G Am**  
Where all is shadow and darkness  
**F**  
And above me a dark sky unfurls  
**G F**  
And all the love I ve thrown away and lost  
**G F**  
I m longin for again  
**G C**  
Now darlin I just wanna be

**G Am**  
Back in your arms  
**F C**  
Back in your arms again  
**G Am**  
Back in your arms  
**F C**  
Back in your arms again  
**G Am**  
Back in your arms  
**F C**  
Back in your arms again  
**G Am**
