

**Nothing Man**  
**Bruce Springsteen**

Capo 1

**D**

I don't remember how I felt,

**G Bm**

I never thought I'd live,

**D**

To read about myself,

**G Bm**

In my hometown paper.

**D**

How my brave young life

**G Bm**

Was forever changed

**D**

In a misty cloud

**G Bm**

of pink vapor

**D**

Darlin give me your kiss...

**G Bm**

Only understand

**D A Bm G**

I am, the nothing man.

**D A Bm G**

I am.

Around here everybody acts the same

Around here everybody acts like nothing's changed

Friday night club meets at Al's Barbecue

The sky is still the same unbelievable blue

Darlin give me your kiss

Come and take my hand

I am the nothing man

You can call me Joe

Buy me a drink and shake my hand

You want courage

I'll show you courage you can understand

Pearl and silver

Restin' on my night table

It's just me Lord, pray I'm able

Darlin with this kiss

Say you understand

I am the nothing man

I am the nothing man
