**C** **Am** **F** **G**  
the evening sun, has found someone, a true love, such as this  
**C** **Am** **F** **G**  
can never be undone, no one, can run from, a kiss  
**F** **G**  
....what I miss....

CHORUS\*\*\*\*\*

**C** **G**  
the moon light: magestic, the song s remedy  
**Am** **F**  
meandering moments of sincerity  
**C** **G**  
the mountain: in motion, tonight comes alive  
**Am** **F** **C Am F G**  
as the golden brown sand, slips through your hand....tonight....

\*\*\*\*\*

**C** **Am** **F** **G**  
pondering purple pedals, whisper secrets, to the wind  
**C** **Am** **F** **G**  
whether we re together, doesn t matter, one bit  
**C** **Am** **F** **G**  
i told you once , i ll tell you twice, you ll never forget  
**C** **Am** **F** **G**  
you fooled me once, and it was nice, so fool me, again  
**F** **G**  
....let s begin....
